

# ReDI School of Digital Integration

ReDI School of Digital Integration gGmbH, Zinnowitzer Straße 8, 10115 Berlin

## Certificate of Participation

We hereby confirm that **Ibrahim Lawal** has successfully completed the following course at ReDI School of Digital Integration:

### JavaScript

*JavaScript* is a 62-hour course aimed at teaching its participants basic skills in programming. It consists of 31 sessions each two hours long. The sessions were on a Tuesday and Thursday weekly from 4.9.2019 until 13.12.2019.

After this course, the participants have learned about:

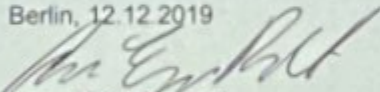

- Setting the scene: HTML, CSS and JavaScript
- Introduction and Setup of Tools
- Working with console log
- Variables, Types, and Operators
- Conditionals, Loops, and Arrays
- Functions and Objects
- JSON
- Events and Input
- DOM: Adding/Removing Elements
- How to work with an API and HTTP Basics
- JavaScript Libraries
- Final Project

Four career workshops were part of the course:

- Start Your Tech Career
- Application Writing
- LinkedIn & Networking
- Mastering the Job Interview

**ReDI School of Digital Integration** is a non-profit organisation that promotes economic and social integration of newcomers and asylum seekers in Germany and Europe. The courses offered at ReDI School are not part of governmental policies or public programs. Participation in the courses is voluntary and free for the participants. ReDI School is financed through donations and works through the voluntary commitment of the teachers.
